“Radical, simply means, grasping things at the root.”

Radical changes to systems takes unreasonable demands to shift power and resources so that we can have some impact on addressing structural racism and atmospheric trauma.

What we won?

The Richmond Kids First Initiative secured 3% of Richmond's general budget for a dedicated funding stream for children and youth services above and beyond the funds previously allotted for these services for a minimum of 10-years.

The fund will generate roughly \$4.3 million a year for 10 years.

There is an Oversight Committee built into the ballot initiative that includes 15 youth and adults appointed by City Council members.

The fund will serve children and youth ages 0-18 years and disconnected Transitional-Aged Youth 18 through 24 years old.

Children, youth and young adults living in Richmond and North Richmond and most impacted by harm, inequity and lack of access to support and services.
